BARBERRY—Thunbergi. Green foliage during summer. Turns red in autumn. Filled with red berries which remain during winter. 5-7 ft. at maturity. 18-24 inch. 40c.
BUDDLEIA—Charming. Lavender pink blossoms. 5 to 6 ft. at maturity. 18-24 inch. 70c.
BUDDLEIA—Dubonnet. New Shrub. Rich grape purple. No. 1. 60c.
BUDDLEIA—EMPIRE BLUE—We do not know of any other Buddleia that compares with this. The color is an Astor-blue with a delicate lilac tone, the whole effect being an exquisite shade of blue. 2-yr. No. 1 plants, 90c.
BUDDLEIA—He de France. Dark purple blossoms. 5 to 6 ft. at maturity. 18-24 inch. 50c.
BUDDLEIA—White Cloud. Not over 3 ft. high and about the same in diameter, forming a green mound studded with short-stemmed flower spikes with pure white blossoms. Early August until October. 2-yr. No. 1 plants 80c.
CARGANA—Siberian Pea Tree. A very attractive and graceful large shrub with finely cut and pendulous light green foliage. 8 ft. at maturity. 4-5 ft. \$1.25.
CORNUS FLAVIRAMEA—Goldentwig Dogwood. Yellow branches giving a very striking winter effect. 3 ft. at maturity. 2-3 ft. 65c.
CORNUS STOLONIFERA—Redtwig Dogwood. Dark wine-colored branches with white flowers and white berries. 8 ft. at maturity. 2-3 ft. 65c.
CYDONIA JAPONICA—Flowering Quince. Dark, shiny foliage with scarlet flowers. 4 ft. at maturity. 18-24 inch. 60c.
DAPHNE—SOMERSET (Evergreen Shrub) — New Starlike, bush-white flowers, deliciously fragrant. In May and June, lasting a month or more. Foliage rich dark green, remaining on plant well into winter. 2 1/2 ft. at maturity. Moss balled like evergreens. 18-24 in. \$2.50.
DEUTZIA GRACILIS—Pure white flowers. 2 ft. at maturity. 18-25 inch. 65c.
DEUTZIA LEMONINEI—Handsome and free flowering. Large, white blossoms. 3 ft. at maturity. 18-24 inch. 65c.
DEUTZIA—PRIDE OF ROCHESTER — Double, white flowers. 3 ft. at maturity. 2-3 ft. 65c.
ELAAGNUS—Russian Olive. Very attractive gray-green foliage. 10 ft. at maturity. 2-3 ft. 90c.
ELDERBERRY—Common Purple fruits. Edible. Green foliage. 12 ft. at maturity. 3-4 ft. \$1.00.
ELDERBERRY—GOLDEN — Bright golden-yellow foliage during entire season. 10 ft. at maturity. 2-3 ft. 75c.
EUONYMUS ALATUS—Winged or burning bush. Corky, winged bark with compact foliage which turns brilliant red with first frosts. 8 ft. at maturity. 18-24 inch. 95c.
EUONYMUS—European Burning Bush. Orange Red fruit. 15 to 20 ft. at maturity. 2-3 ft. 80c.
FORSYTHIA FORTUNEI—Yellow flowers early in spring. 8 ft. at maturity. 2-3 ft. 65c.
FORSYTHIA INTERMEDIA—(Arching) earliest blooming, long drooping canes of yellow flowers. April. 6 to 8 ft. at maturity. 2-yr. 18-24 in. 65c.
HONEYSUCKLE—TARTARICA GRANDIFLORA ROSEA—Bright pink flowers, covered in summer and autumn with orange berries. May. 6 to 8 ft. at maturity. 2-yr. 18-24 in. 65c.
HONEYSUCKLE—TARTARICA RUBRA—Light red flowers, covered in summer and autumn with scarlet berries. May. 6 to 8 ft. at maturity. 2-yr. 18-24 in. 65c.

HONEYSUCKLE — White, Red or Pink blossoms. 10 ft. at maturity. 2-3 ft. 60c.
HYDRANGEA A. G.—Hills of Snow. Pure white blossoms. 4 ft. at maturity. 18-24 inch. 60c.
HYDRANGEA—Blue — A distinctive colorful shrub. Flowers large, blue, globe shaped. 5 ft. at maturity. June through August. 2-yr. 4-in. pots. \$2.00.
HYDRANGEA P. G. — Large panicle heads of white flowers fading through pink to brown. 8 to 10 ft. at maturity. 18-24 inch. 60c.
HYDRANGEA P. G.—Tree form. 2-3 ft. \$2.00.
KERRIA JAPONICA—Jet Bead. White flowers, followed by jet black fruits. 4 to 5 ft. at maturity. 18-24 inch. 60c.
KOLKOWITZIA AMABELIS — Beauty Bush. Slender, graceful, arching branches with pink flowers. 6 ft. at maturity. 18-24 in. 65c.
LILAC
PURPLE—Common. 2-3 feet. 75c.
WHITE—Common. 2-3 ft. 95c.
VIOLET BLUE—French. 2-3 ft. \$1.35.
PURPLE RED—French. 2-3 ft. \$1.35.
WINE RED—French. 2-3 ft. \$1.35.
PINK—French. 2-3 ft. \$1.35.
WHITE—French. 18-24 in. \$1.35.
BLUE—French. 2-3 ft. \$1.35.
CHINESE or PERSIAN—2-3 ft. 75c.
PHILADELPHUS — Golden Syringa. Yellow foliage, white flowers. Very sweet scented. 3 to 5 ft. at maturity. 15-18 inch. 70c.
PHILADELPHUS VIRGINAL — Mock Orange. Large, white, semi-double to double flowers. Very fragrant. 7 to 8 ft. at maturity. 18-24 in. 60c.
SYMPHORICARPOS RACEMOSUS—Snowberry. Small pink flowers followed by large, white berries, which remain during winter. 4 to 5 ft. at maturity. 18-24 inch. 65c.
SYMPHORICARPOS CHENAUILLI—Coralberry. Pink flowers followed by red and white berries. 3 to 4 ft. at maturity. 18-24 inch. 65c.
SPIRAEA ANTHONY WATERER—Red flowers all summer. 3 ft. at maturity. 18-24 inch. 65c.
SPIRAEA BILLIARDI—Blood Red flowers on spikes. 3 to 4 in. long. 5 to 7 ft. maturity. 2-3 ft. 60c.
SPIRAEA MACROPHYLLA — This is without doubt the finest pink Spiraea ever introduced. The enormous spikes of Cameo-pink flowers up to 12 inches long, are produced on strong, willowy stems up to 4 ft. long. Clusters of secondary spikes follow after cutting and by trimming out the old flowers, the plant can be made to bloom all summer until late September. 2 to 3 ft. 95c.
SPIRAEA THUNBERGI — Dense, feathery bush. 3 to 5 ft. high. White flowers in early spring. Foliage light yellowish green, turning red and orange in fall. 5 ft. at maturity. 2-yr. 18-24 in. 65c.
SPIRAEA VAN HOUTTEI—Bridal Wreath. Most popular Spiraea. Small, white flowers in clusters during early Spring. 6 to 7 ft. at maturity. 2 to 3 ft. 50c.
TAMARIX AFRICANA—Pink flowers early in Spring. 4 to 5 ft. at maturity. 18-24 inch. 65c.
VIBURNUM—American Cranberry bush. Very handsome shrub with a profusion of orange-scarlet berries. 8 to 10 ft. at maturity. 18-24 inch. 65c.
VIBURNUM—Japanese Snowball. Large white blossoms. 8 to 10 ft. at maturity. 18-24 inch. 65c.
WEIGELA ROSEA—Flowers large and of deep rosy color, borne in great profusion. July. 5 to 6 ft. at maturity. 2-yr. 18-24 in. 65c.
WEIGELA ROSEA NANA—Variegated. Fine dwarf shrub. Silvery, variegated leaves. Flowers rose with white eyes. 4 to 5 ft. at maturity. 2-3 ft. 65c.
WEIGELA EVA RATHKE—Dark red blossoms. 4 to 5 ft. at maturity. 18-24 inch. 50c.

BUSH CHERRIES

75c

3 Year — 2 to 3 Feet

A new shrub! A dwarf cherry that will give you a taste thrill such as you've never enjoyed before. A 3-ft. bush with white flowers in spring and black, sweet cherries in summer. This new cherry is edible and is used for jams, pies and jellies. 3 yr. 2-3 ft.

CHERRIES

SWEET CHERRIES

1 yr. Branched — 11-16

\$1.50

BING—Fruit very large. Black. Highest quality.
BLACK TARTARIAN — Very large. Bright, purplish black. Tender, juicy, very rich. Tree remarkably vigorous and erect grower, and an immense bearer. One of most popular varieties for all parts of the country.
EMPEROR FRANCIS — Of Napoleon type but better in quality. Fruit similar, but redder and becomes darker.
GIANT—New. Large and Black. Keeps well.
LAMBERT — Large, dark purple. Firm, rich, juicy.
NAPOLEON—A beautiful cherry of large size. Yellow with bright red cheeks. Flesh firm, juicy and sweet. Tree upright grower, heavy bearer. Good for home and market.
SCHMIDT'S BIGARREAU — Fruit very large size, deep mahogany color. Flesh dark, tender, very juicy with a fine, rich flavor. Excellent shipper. Fine for sauce.
YELLOW SPANISH—Large yellow fruit.
WINDSOR—Fruit exceptionally large, juicy and firm. Flesh pinkish and sometimes streaked. Good quality and excellent bearer. Tree is a rapid grower, vigorous and upright. Fruit large and dark, almost black. Best commercial variety.

Fall Ripening Sweet Cherries

2 yr. 4 to 5 ft.

\$2.50

AUGUST SUPREME — Attractive dark red cherries on the market when no others are competing.
SWEET SEPTEMBER — Fruit attractive medium dark red, deliciously sweet, excellent for eating fresh or canning. Hangs on tree about three weeks after ripening.

SOUR CHERRIES

2 yr. 4 to 5 ft.

\$1.25

EARLY RICHMOND—Fruit medium size, round, dark red. Bears early.
ENGLISH MORELLO — Red. Good quality.
MONTMORENCY — The best red, sour cherry and largest. Grown for market and canning. Canning factories use tons yearly. Resistant to Yellow Leaf. Fruit dark red, very firm, fine flavor, regular bearer of enormous crops, ships well and brings excellent prices. Fine for pies.

APRICOTS—\$1.50

2 yr. 4 to 5 ft.

EARLY GOLDEN—Small, pale orange. Juicy and sweet.
MOORPARK — Large, orange-red cheek, firm, juicy, sweet.
SUPERB—Good flavor, medium size, light salmon. Late August.

FIGS

TEXAS EVERBEARING—2-3 ft. 50c.

SEEDS

Burpee and Ferry-Morse vegetable and flower seeds in packets.
Vegetable and grass seeds in bulk.

SUMMER VARIETIES

ANOKA — New. Beautiful, red-striped fruit. Good quality. Bears second year after planting.
EARLY MCINTOSH—Ideal for home, orchard or commercial use. Tree vigorous grower. Annual bearer. Fruit same size and quality as McIntosh Red.
LODI—Yellow fruit. Large, vigorous.
RED DUCHESS—Same quality as Duchess, only deep red all over.
RED ASTRACHAN—Good bearer. Fruit handsome, large, round, covered with deep crimson. Flesh juicy and tender.
SWEET BOUGH—Pale yellow. Fine for baking.
YELLOW TRANSPARENT—Tree grows upright, hardy, early bearer. Fruit good size. Skin clear, white to pale yellow in color. Flavor good. Excellent cooking apple.

AUTUMN VARIETIES

FALL PIPPIN—Large, yellow, tender, juicy and rich.
POUND SWEET—(Pumpkin Sweet), large yellow russet apple. Very sweet.
RED GRAVENSTEIN—A new red sport. Differs from the old Gravenstein only in the solid dark red color.

WINTER VARIETIES

BALDWIN—Large, red, crisp, juicy. Good eating and cooking apple. Tree vigorous and productive.
CORTLAND—Beautiful red apple, larger than McIntosh. Excellent quality, keeps late in winter. Excellent for shipping. Good cooking apple.
DELICIOUS, DOUBLE RED—Solid lustrous red without stripes. Fine grained flesh of excellent quality and flavor. Splendid keeper and shipper. Annual bearer. One of the most highly-prized winter eating apples.
DELICIOUS, RED—Flesh juicy and melting.
FAMEUSE—(Snow Apple) Medium size. Deep crimson, flesh white, delicious.
GALLIA BEAUTY—Solid red, high quality.
GOLDEN RUSSET—Clear golden russet.
JONATHAN—Red, highly flavored. Fine commercial variety. Early bearer.

KING OF TOMPKINS COUNTY—Flesh yellow, crisp, tender, juicy, sub-acid. Skin yellow and red.

MCINTOSH RED—Hardy, attractive apple. Good size, nearly covered with red. Flesh white, fine, very tender and refreshing. Yields large crops, good annual bearer.

MILTON—Dark red, white fleshed. Rich flavor.
PALE MCINTOSH—Like McIntosh, but ripens a month earlier. Fruits pinkish red with heavy bloom. Flesh white, tender, crisp and juicy, of McIntosh flavor and aroma.

MEDINA—Resembles Delicious, but larger and more attractive.

NEW ROGERS MCINTOSH—Solid red McIntosh, classed as one of the most valuable new fruit introductions in years. Annual bearer. Fruit is the same size as the regular McIntosh, but not striped. Flesh white, fine grained, very tender, juicy and refreshing.

NORTHERN SPY—Hardy, large, red striped. Flesh juicy, crisp, tender. Tree healthy, strong grower.

RED NORTHERN SPY—Typical Northern Spy except in color. Bright red without stripes or splashes. Very popular.

RED ROME—One of the leading commercial varieties. Same shape, texture and quality as Rome Beauty.

R. L. GREENING—Fruit large and handsome, smooth dark green, overspread with yellow. Wonderful for cooking, good keeper, tree heavy yielder.

ROME BEAUTY—Large, round, red striped.
STAYMAN RED—Solid red without stripes. Does not crack at stem. Crisp and juicy. Will not scald in storage.

STAYMAN'S WINESAP—Fruit rich dark red, striped with yellow and green. Flesh firm and fine grained. Exceedingly juicy and tasty.

SWEET DELICIOUS—Large, attractive. Yellow and dark red. Fine for dessert and baking.
TOLMAN'S SWEET—Light yellow.

TWENTY OUNCE—Very large, yellow striped fruit, fine quality. Good keeper.
WEALTHY—Red, flesh white, sub-acid.
YELLOW DELICIOUS—A bright, golden yellow apple. Bears young and heavily. Fruit large, juicy and exceptionally fine quality.

APPLES

Standard 2-yr. 5 to 6 Ft. \$1.00

DWARF APPLE TREES

Full Dwarf, 2 yr. — \$3.50 each

PLANTING INSTRUCTIONS FOR DWARF APPLE TREES
Plant tree so that the bud union will remain two inches above ground. This necessary for the tree to retain its dwarf habit. Height at maturity 5 feet. Very popular for lawn. Plant 10 feet apart.
VARIETIES—Cortland, Delicious, McIntosh, Yellow Delicious, Yellow Transparent, Red Gravenstein.

CRAB APPLES — \$1.00

2 year — 5 to 6 feet

DOLGO CRAB—Handsome Crab Apple. Fruit jellies easily.
HYSGLOP CRAB—Fruit large, deep crimson. Desirable for home use and market.
YOUNG AMERICA—Attractive red fruits, excellent size and quality. Jelly made from the fruit is a clear, beautiful red and splendidly flavored. Season middle of September. Young America planted as ornamentals as well as for their fruit.

5 in 1 Apple Trees — \$3.00 ea.

5 DIFFERENT VARIETIES ON ONE TREE

PLUMS

Standard — 2 yr., 5 to 6 ft., \$1.50

(except as noted)

ABUNDANCE—Tree grows rapidly, bears young and yields abundantly. Fruit medium size, amber with red markings. Juicy and sweet.
BRADSHAW—Very large, early plum. Dark, violet-red. Juicy and good. Very productive, valuable for market.
BURBANK—Large, with reddish, purple skin.
FORMOSA — Very productive. Large fruit. Greenish yellow, overlaid with red. Sweet and good. One year only.
GRAND DUKE—Large, reddish purple. Flesh golden yellow and juicy.
HALL—New. Cross between Golden Drop and Grand Duke, but better in flesh and flavor. Tree nearly perfect.
IMPERIAL GAGE—Large, greenish. Delicious.
LOMBARD—Handsome reddish plum. Flesh yellow, juicy and pleasant. Reliable.
REINE CLAUDE—Large, pale yellow, marked with red. Good bearer.
SANTA ROSA—Large, with reddish purple skin. Prolific bearer. Fruit keeps and ships well. One year only.
SHROPSHIRE DAMSON — Productive. Dark purple.
YELLOW EGG—Large. Golden yellow.
BEACH PLUM (PRUNUS MARITIMA)—A fine shrub for the garden that bears edible fruit. Lovely white or pale pink flowers in late June; this irregular shape shrub grows 8 feet tall, bearing purple fruit in September which makes an excellent jelly of unique flavor. Good for dry soil, also at the seashore. 2 to 3 feet. \$2.25 each.

DWARF PLUMS

2 yr.—3-4 Ft.

ABUNDANCE & FELEBERG—\$3.50 each.

Scotts Lawn Care Products

SCOTTS LAWN SEED—Top of the harvest seed for lawns in full sun, moderate shade. 100% perennial grasses including expensive Poa Trivialis. Better lawn, at less cost, from 2 lbs. Scotts Seed than 5 lbs. ordinary seed. More seeds: Scotts—3 million per pound, ordinary 1 million. Scotts free from coarse grasses, excessive weeds and chaff of ordinary seed. Sow at low rate: 1 lb. to 250-500 sq. ft.
1 lb.—\$1.35 5 lbs.—\$6.45 10 lbs.—\$12.75
25 lbs.—\$29.75 50 lbs.—\$59.50

SCOTTS SPECIAL PURPOSE BLEND—Selected formula for drier soils, deep shade, play areas and other places where growing conditions are not good and rugged turf is wanted. This is Scott quality seed but price is less because of difference in blend of grass varieties. Composed of typical good growing, weed-free Scott quality seed. Rate: 1 lb. to 200 sq. ft. (20x10 ft.).
1 lb.—\$1.15 5 lbs.—\$5.45 10 lbs.—\$10.65
25 lbs.—\$26.25 50 lbs.—\$52.50

SCOTTS BENTGRASS—Lawns like velvet golf greens. Sow separately or mix with other seed. Rate: 2 lbs. per 1,000 sq. ft.
1 lb.—\$1.95 5 lbs.—\$9.35

SCOTTS TURF BUILDER—Grass needs right food to grow properly. Turf Builder, made especially for grass, provides complete nourishment. Clean, granular, no offensive odor. No bulky waste in Turf B—result: Rate is 1 lb. per 100 sq. ft., not usual 4 lbs. 100 lbs. Turf B @ \$7.50 feeds 10,000 sq. ft., 400 lbs. ordinary fert. @ \$4.25 costs \$17. Orders 50 lbs. or more filled with 50 lb. bags.
10 lbs.—\$1.35 25 lbs.—\$2.50 50 lbs.—\$3.95
100 lbs.—\$7.50 500 lbs.—\$35.00 Ton—\$125.00

SCOTTS WEED & FEED—Destroys weeds, stimulates grass growth. Effective control of Dandelions, Plantain, Buckhorn, in fact practically all non-grass weeds. Safe on lawns containing Bent or Clover. Larger areas quickly treated with a Scotts Spreader. Exclusive Scott development customer proven since 1945 in over half million lawns.
Shaker Box—\$1.00 Box—\$3.50 (2,500 sq. ft.)
Bag—\$12.75 (11,000 sq. ft.)

SCOTTS 4-X WEED CONTROL—Handiest of spray controls for those who prefer this method. Kills broad-leaved weeds, no harm to grass. Pre-measured packets. Dissolves quickly.
No. 2—\$1.00 (1,400 sq. ft.)
No. 3—\$3.25 (6,000 sq. ft.)
No. 18-6—\$6.85 (18,000 sq. ft.)

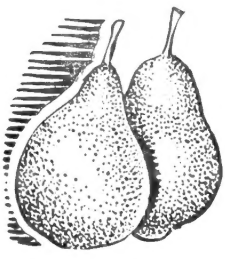

SCOTTS SPREADERS—Designed and produced by Scotts. Accurately apply Scotts Seed, Turf Builder, Weed & Feed at low rates specified. Sturdy construction, rubber tires. Savings on materials pay for spreader. Rate adjustment on handle. Easy, positive shut-off control.
No. 25—\$9.95 No. 50—\$16.50 No. 100—\$39.50

SCOTTS PEST CONTROL—Kills lawns of Jap Beetles, Grubs, Chinch, Bugs, Sod Webworms, Ants. Non-poisonous. Easily applied with Scotts Spreader.
Box—\$1.95 (750 sq. ft.) Box—\$4.95 (2,500 sq. ft.)
Drum—\$18.85 (11,000 sq. ft.)

WOOD LABELS

5 inch Painted—60c per 100.
6 inch Painted—70c per 100.
8 inch Painted—\$1.10 per 100.
3 1/2" Painted—Copper wired—75c per 100.

PEARS

STANDARD
2 yr. — 5 to 6 ft.
\$1.50
(except as noted)

BARTLETT—Leading commercial pear. Large, yellow, rich and juicy. Tree hardy, regular and heavy bearer.
BEURRE BOSCH—Large, yellow, flesh white, rich and delicious. Very popular early winter pear.
CLAPP'S FAVORITE—Large fine pear resembling Bartlett. Pale lemon yellow with brown dots of fine texture. Melting, buttery, juicy and delicious flavor. Trees hardy and productive.
DOUGLAS—New, large, roundish. Skin yellow bluish scarlet. Blight-proof and frost-proof.
GORHAM—Fruit resembles Bartlett in size, color and shape. Excellent flavor.
KIEFFER—Large, golden yellow.
SECKEL—Small, yellow, red cheek. Juicy, excellent for pickling.
SEEDLESS—A new fruit sensation. Seedless and coreless. Resembles Bartlett in many ways, including color. Ripens evenly and keeps well in storage. 4-5 ft. \$2.50.
SHELDON—Large, sweet, yellow and green.

PEAR TREES — DWARF

3 to 4 ft.
\$3.50

A valuable addition to any lawn or garden. A low growing tree. Fruit is large standard size, and easily accessible from the ground.
BARTLETT—Large yellow, rich and juicy fruit.
CLAPP'S FAVORITE—Pale lemon color with brown dots, of fine texture. Melting, juicy and delicious.
SECKEL—Small, yellow, red cheek. Juicy, excellent for pickling.

PRUNES \$1.50

Standard—2 yr., 5 to 6 ft.

FELLENBERG—The most popular commercial prune. For dessert, marketing, drying or preserving. Fruit large, dark purple with blue bloom. Oval, pointed and tapering. Flesh juicy and delicious, separating easily from stone.
GERMAN—Medium dark blue. Rich flavor.
STANLEY—New. Introduced by New York State Experimental Station. Large, prune-shaped. Dark blue, becoming bluish-black. Fresh greenish yellow, juicy, fine grained, sweet. Freestone.
